

Electronic Fax as a Service

LABUSAFAX.com | 1-866-572-4867

LABUSA Electronic Fax as a Service (eFaaS) is a secure and cost-saving alternative to traditional manual faxing. Enabling the ability to fax by email, smart phones, or custom application. The service eliminates the need for physical appliances and software downloads.

How does it work?

1. The user is provided a dedicated fax number and email-to-fax account.
2. Using the web based email-to-fax account, users can:
 - a. Send faxes as an email with an attached document. The system supports all popular file formats. Call for complete list.
 - b. View and store received faxes in a PDF file format on a highly available storage system.
 - c. Set the system to auto forward received faxes to other email accounts or to your mobile devices.

Key benefits

- **Scalability** – LABUSA faxing service can quickly and easily meet the needs of a customers from a single line to multiple high volume simultaneous faxes.
- **Document control** - With manual faxing there is no guarantee to reach the right person. The eFaaS web interface with secure accounts for fax storage.
- **Security** – Manual fax and email are inherently insecure with human error. LABUSA offers state-of-the-art security features within its faxing solution.
- **No Cap-ex** – LABUSA faxing service eliminates capital expenditure and you only pay for the faxes that you send or receive.
- **Remote collaboration** – Location is the barrier for traditional faxes. The LABUSA faxing solution enables group faxing and helps increase workflow.

Reliable, secure and efficient

With LABUSA faxing service you never have to worry about a busy signal on your fax number or having to wait to send a fax. You can send and receive multiple faxes all at the same time. The system enables the ability to schedule a fax for future date and time.

LABUSA electronic fax as a service is a private and secure form of fax communication with compliance for HIPAA, SOX, and GLBA. The system provides mobility by delivering faxes to smart phones, handhelds, and other devices. LABUSA eFaaS provides an electronic storage of fax on encrypted disk. The system efficiency allows you to get more done at less cost and less effort.

Whether your looking to reduce cost, provide operational efficiency, or just provide more functionality in your fax communication, LABUSA eFaaS provides that ability. Pricing is as low as \$ 0.04 per page and capabilities to manage thousands of faxes daily. Please call today to discuss your fax needs and for a free trial account.
