

Hosted Microsoft® Exchange Server Services

LABUSA.com | 1-866-572-4867

Set Yourself Free

For just a few dollars a day you can seamlessly access and synchronize all your mailbox data, including contacts and calendar, across a variety of platforms and mobile devices.

Total Mobility

If you typically use Microsoft Outlook while in the office, a BlackBerry or smart phone while on the road, and Outlook Web Access from home, you can sync them all together. And that's without ever worrying about missed e-mails, contacts or appointments.

Improved Productivity

Hosted Microsoft Exchange Server, offers all the features and functionality of the popular application in addition to an intuitive collaboration capability for improved productivity with anywhere, anytime access.

Complete Mobile Access:

- Work anytime, anywhere — Get full access to all your e-mail folders, contacts, calendar and files from any Microsoft Outlook or browser.
- Keep up to date — Changes made to your e-mails, contacts, calendar and files are automatically updated when accessed via any other medium.
- Mobile access — Carry your contacts, calendar, notes and task list on the road in your PDA, whether it's a BlackBerry, Compaq, Dell, Handspring or Palm, etc.
- Work offline — Exchange e-mail, change contacts, schedule meetings and modify files from public folders while disconnected from the internet or offsite. Outlook keeps an offline copy of it all, and all offline-mode changes are synchronized.

Increase Your Productivity:

- Be set free with generous disk space starting at 25GB per mailbox.
- Collaborate easily and securely with co-workers, customers and suppliers.
- Schedule meetings with your co-workers.
- Share files, e-mails, contacts and calendars across the company.
- Edit, add and delete appointments on other users' calendars.
- Eliminate scheduling conflicts for resources such as meeting rooms, equipment, etc.
- Filter unwanted messages before they get to your mailbox with spam software (client and server-side).

Solution Highlights

Save Money:

- Save money by not having to purchase licenses for Microsoft Exchange Server.
- Eliminate the need to purchase backup software and tapes, or antivirus software.
- Software updates are handled automatically on the servers, at no charge to you.

Maintain Data Security:

- Be *secure* with an enterprise-managed firewall, which includes packet inspection and intrusion detection.
- Be *protected* by automatic virus checks on all inbound and outbound email and attachments.
- Be *confident* that your valuable company data is in a secure data center.
- Be *sheltered* because data is backed up daily — no more data loss.
- Be *safe*, knowing we keep up with the latest security holes used by hackers; your data is always secure.

BlackBerry Enterprise Server:

- Two-way wireless synchronization
- Anytime, anywhere access to all your e-mail folders, files, contacts and calendar
- View attachments directly from a handheld device

Efficient Messaging Server

- Real-time wireless synchronization
- Wirelessly synchronize your e-mail, calendar, contacts, notes, tasks, public folders, access to your Global Address List (GAL)
- End-to-end security and data encryption
- Constantly updated so your information is always up to date
